

In an effort to preserve the local waterways and decrease pollution Hampton Watercraft and Marine has made a pledge to move toward becoming a “green marina”. Below we have listed what we have done thus far to “go green”.

- We recycle all of the following:
 - Shrink Wrap
 - Batteries
 - Scrap Metals
- We only use biodegradable products in the water.
- We use environmentally safe cleaning products .
- We use water based bottom paints
- We sell environmentally friendly products in our ship stores.
- Energy conservation within the office through limited light usage.
- Reduced paper usage through e-mail communication when possible.
