FOR IMMEDIATE RELEASE

**JESCO Acquires Standard Equipment
Becomes Exclusive Deere Dealer for Delaware and Maryland**

South Plainfield, NJ - JESCO, one of New Jersey's leading construction equipment dealerships, is pleased to announce that they have expanded their territory coverage by acquiring Standard Equipment of Fredrick, Maryland. This acquisition consists of five new locations and expands JESCO's reach across Delaware, Maryland and the Washington D.C. metro area.

"We are excited about increasing our representation of John Deere and other quality OEMs to existing and prospective customers across Delaware and Maryland," states Jon Robustelli, President of JESCO. "We look forward to implementing our goals and business model in these new locations and continuing our tradition of delivering outstanding customer service."

JESCO will offer John Deere heavy construction equipment as well as John Deere's CWP line, which includes skid-steer loaders, compact track loaders, mini-excavators and compact wheel loaders to end-users in these new areas. In addition, JESCO will also offer their emissions solution products and services to contractors bidding on work in non-attainment zones.

JESCO brings with them their large equipment rental fleet along with their award-winning parts and service departments. They have also retained a number of key Standard Equipment employees who will continue to provide services to their respective territories.

For over 37 years, JESCO has been supplying municipalities and contractors throughout New Jersey and the New York metro area with a wide range of quality construction equipment including John Deere, Hitachi, BOMAG, Hypac, Indeco, Genesis, Hydrema, Cleaire and most recently, LeeBoy and Rosco. JESCO has three New Jersey branch offices conveniently located in South Plainfield, Fairfield and Lumberton, a Beacon, NY location as well as their new locations in Delaware and Maryland. With one of the broadest equipment offerings and largest rental fleets in the area, a massive parts inventory and a full fleet of service vehicles, JESCO ensures that they are always available to meet the changing needs of their customer base.
