

Short Term Storage: (1 month or longer)

Items Needed:

1. 3mm T-Handle
2. Fuel Stabilizer
3. Battery Tender

Steps for Storage:

1. Pour stabilizer in fuel tank (follow instructions on bottle).
2. Turn fuel valve off
3. Locate carb drain bolt (above shows Bonneville drain bolt).
4. Drain all carbs as needed into plastic container or shop rag.
5. Connect battery tender to battery (follow instructions provided).
