Fuel tank, fenders, side covers
Check condition
Seat - check condition
Handlebar/hand grips - ck condition
Levers - check condition
Ck for leakage - engine, transmission, radiator, fuel
Ck for leakage - secondary & final drive

SERVICE

Battery - fill/charge/ck vent routing
Battery cables/terminals in good condition, no corrosion
Fuel tank vent hose - ck routing
Replace engine oil and filter
Radiator hoses - inspect
Radiator - inspect/adjust fluid level
Clutch cable - ck routing and clean/lube/adjust
Clutch fluid - inspect/fill - change as required
Throttle cable - route & clean/lube/adjust
Engine idle speed - ck/adjust
Air filter - inspect/clean/replace if needed

SUSPENSION

Fr & Rr Suspension - adjust to standard settings
Suspension linkage - ck for smooth movement/lube
Fr forks - ck for seal leaks
Rr shocks - ck for leaks

ELECTRICAL SYSTEM

Headlight(s) - ck/adjust
Tail/parking light(s) - ck
Brake light(s) - ck/adjust
Turn signal light(s) & indicator - ck
Oil pressure light - ck
Coolant/engine overheat light - ck
Instrument light(s) - ck
Neutral light - ck
Gauges - ck operation
Clock - set time, ck operation
Side stand position switch - ck
Starter interlock switch - ck
Horn(s) - ck
Engine stop switch - ck
Fuses - inspect, replace as req.

FINAL DRIVE

Drive chain/belt - ck condition/adjust/clean/lube
Sprockets - ck condition
Final and secondary drive oil - fill/adjust level

BRAKES

Fr & Rr brake pads - inspect/replace if <50%
